GAMECOURT® LEED® **CREDIT CONTRIBUTIONS**

GameCourt® can contribute to six of the nine specific LEED® rating systems as outlined below.

MR CREDIT 3 - CONSTRUCTION WASTE MANAGEMENT (1-2 points)

We have a reclamation program; all overages can be packaged and shipped back at the owner's expense, call 815-338-4664 to coordinate. GameCourt® base mat must be free of adhesive & construction debris, including dirt, concrete or asphalt. GameCourt® component buckets must be intact to prevent leakage and the seal unbroken.

MR CREDIT 4 - RECYCLED CONTENT (1-2 points)

GameCourt® 100% black base mat recycled content is 90.5% total percent recycled - 0.0% total percent post industrial recycled material - 90.5% total percent post consumer.

MR CREDIT 5 – REGIONAL MATERIALS (1-2 points)

The GameCourt® base mat is manufactured in Delphos OH. The GameCourt® urethane is manufactured in Harmony, PA. There are several internet mapping features which will help you determine if your project is within 500 miles.

IEQ CREDIT 4 – LOW EMITTING MATERIALS – ADHESIVES/COATINGS (1-3 points)

Our GameCourt® urethane adhesive, scratch coat, wear coat, top coat, & game line paint VOC contents are below the SCAQMD #1168 maximum VOC content for each architectural application.

ID CREDIT 1 – INNOVATION IN DESIGN (1 point)

The GameCourt® system does not need to be removed from the area if the topcoat or game lines become worn from use or damage occurs to the base mat. GameCourt® can be updated using various types of methods including GameCourt® Over Pour and GameCourt® Top Coat, saving the owner money associated with tearing out the flooring and replacing it with another system. GameCourt® is designed to be the only floor purchased for the life of the room.
