Moose LockTile®

Moose LockTile® is a 23" x 23" x 8mm interlocking recycled rubber tile with EPDM color flecks.

Regularly used in weight rooms, Moose LockTile® is also well suited for more economical installations such as home gyms, schools, and YMCAs where a less "permanent" installation is desired.

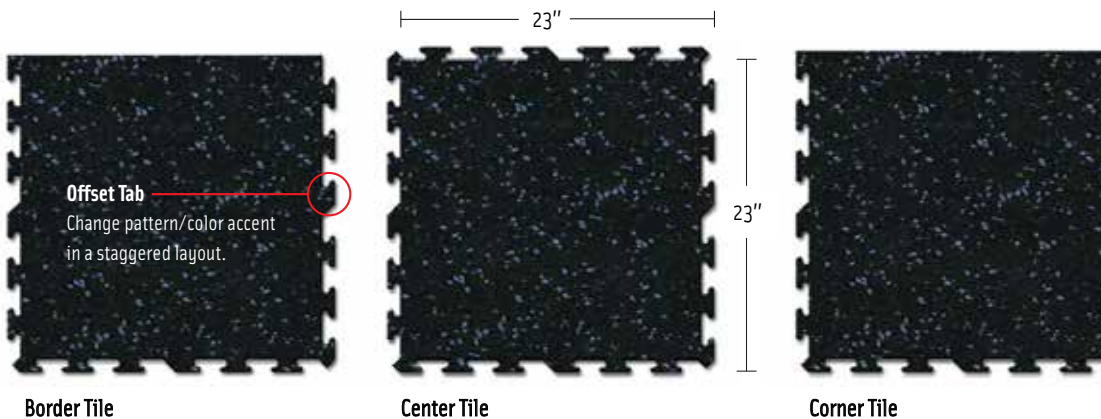

Moose LockTile® is durable enough to hold up to high use and heavy weights, is economical and versatile. Easily install tiles to fit an entire room "wall-to-wall", or configure the tiles in the center of the room to create an "area rug" layout. No adhesive needed.

Ideal for Weight Rooms, Home Gyms and Training Centers
